* 3 Beds * 1 Bath * 155sqm

A special and unique (almost finished) building designed by a very well known Architect that consists of 7 large and luxury apartments (Five 3 bedroom apartments and two 2 bedroom apartments) at the most expensive location at the heart of Nicosia. This building has the best in quality materials, safety systems, from fingerprints to glass elevator overlooking the gardens. The best city home you will probably find with the best and most modern specifications. Vice versa beams, glass elevator overlooking the gardens, security system with fingerprint and many more. It offers a fully installed independent floor heating with the most expensive and low consumption heat system called "Heat Pump" and air-condition fully installed...
